Education

Politecnico di Milano - Milan, Italy

Master's Degree in Computer Science and Engineering

September 2024 - October 2026 (Expected)

Universidad del Norte - Barranquilla, Colombia

Bachelor's Degree in Systems Engineering

January 2020 - December 2024

Work Experience

Universidad del Norte - Barranquilla, Colombia

Computer Architectures Instructor

July 2022 - December 2022

- I explained the basic logic gates AND, OR, NOT and their combinations to the students.
- I showed the students how to build a MIPS architecture based CPU in Logisim.
- I introduced different concepts such as ISA, MIPS, pipelines, RAM and cache.

Universidad del Norte - Barranquilla, Colombia

Algorithms & Data Structures Instructor

January 2022 - May 2022

- I explained data structures to students, such as graphs and trees.
- I showed students the importance of understanding P, NP complexity problems.
- I introduced different types of sorting algorithms to students, such as Quick sort and Heap Sort.

Recent Projects

My-Blog - <https://github.com/Khalil002/My-Blog> (visit live: <https://blog.khalilcodes.com/>)

- A personal blog website where you can create blog posts and users can comment on them, built using Django (monolithic backend), PostgreSQL and plain HTML/CSS, JV

DB-Admin - <https://github.com/Khalil002/DB-Admin-WebApp>

- A web application for administrating a database built using the MERN stack and a microservices architecture backend

E-Commerce Platform - <https://github.com/Khalil002/e-commerce-api>

- A E-Commerce Platform API with a microservices architecture built using the Django REST framework, PostgreSQL and RabbitMQ

Skills

Languages

- Spanish: Native speaker.
- Arabic: Native speaker.
- English: C2 - TOEFL IBT (109/120).
- Italian: B1 - CELI 2 certified (currently learning for B2).

Skills

- Strong teamwork skills, with the ability to collaborate effectively with team members and contribute to a positive team environment.
- Proficient problem-solving skills, being capable of delivering applications on time, analyzing requirements and troubleshooting issues.
- Effective time management skills, with the ability to prioritize tasks and meet deadlines.
- Adaptable and quick to learn new technologies and environments.
- Excellent communication skills, with the ability to explain complex technical concepts to non-technical stakeholders.

IT Skills

- C, C++, C#, Python, Java, Javascript, Matlab, PHP, Dart programming languages; HTML and CSS languages.
- SQL Server, MySQL, PostgreSQL, MongoDB and Neo4j Database Management Systems.
- Django, FastAPI, .NET, Spring, NodeJS, React and Laravel frameworks.
- Git, Github. Azure DevOps CI/CD pipelines deployment, and repositories. XUnit testing.
- Docker and Kubernetes for building, deploying and managing containerized applications.
- Microsoft Suite (Word, Excel, PowerPoint).

In compliance with the Italian legislative Decree no. 196 dated 30/06/2003, I hereby authorize you to use and process my personal details obtained in this document.
